“ I took care of Beverly as a CNA employed by Camellia Priority Private Duty out of Knoxville, TN. I have been with Beverly for several years. As CNA's we are advised not to become personally involved or become too close to our clients. That is always easier said than done. With Beverly, she became more than just a patient she became my friend and I hope that I was her's.

Through her illness and various treatments she would ask me to explain the various procedures and treatments. I would research and find all the info I could to allow her to make an informed decision. She would then ask me what I would do? I would always encourage her to fight and if it became too hard, I told her, "you can always quit," at least you will know that you gave it your all...I was there and saw how treatments took her strength and weakened her body and still she fought. At one point it seemed as if things seemed to be working, then the Cancer again came back.. Once again Beverly decided to give it one last battle but her body just was too weak from all the previous battles and only was able to take 2 chemo treatments.

On Sunday evening it was decided that Beverly had fought long enough and the hand of the Master reached down from heaven and lifted her from this world of pain and sorrow to take her to her Heavenly Home.

All is well she fought a good fight, the battle has been won! Heaven Forever More is her home..

No more sickness, No more Pain, Never Growing Old...

Knowing all this, I will still miss you my friend. I know you will be on the other side watching and waiting for all your family and friends.

So Good Bye for a little while my friend...until we meet again.

Love You,

Your Friend
Darlene
